

Subject: RoHS Directive 2011/65/EU Certification for RT, RL, U series, updated 9/11/2015

As of November 1, 2004 all **RT series** resistors supplied by HVR Advanced Power Components, Inc have been certified as meeting the currently defined Directive. Traceability is certified by the date code marked on the units. All units with a date code of 0445 (45th week of 2004) and beyond are certified as meeting the Directive.

Any unit that has no date code stamped on it, or has a date code of 0444 or before is not certified by HVRAPC.

As of July 25, 2005 all **RL Series** resistors resistors supplied by HVR Advanced Power Components, Inc meet the currently defined RoHS Directive. Traceability and verification will be accomplished via the date code marked on the units. All units with a date code of 0529 (29th week of 2005) and beyond are certified by HVR Advanced Power Components, Inc. as meeting the Directive.

Any unit that has no date code stamped on it, or has a date code of 0528 or before is not certified.

As of July 25, 2005 all **U Series** resistors supplied by HVR Advanced Power Components, Inc meet the currently defined RoHS Directive. Traceability and verification will be accomplished via the date code marked on the units. All units with a date code of 0529 (29th week of 2005) and beyond are certified by HVR Advanced Power Components, Inc. as meeting the Directive.

Any unit that has no date code stamped on it, or has a date code of 0528 or before is not certified.

William D. Glodzik II,
Director of Technical Services
HVR Advanced Power Components, Inc.
